## What is this product?

### Type

The product is a Sub-Fund of Eleva UCITS Fund (the "Fund"), a société anonyme under the laws of the Grand Duchy of Luxembourg and qualifying as an open-ended société d'investissement à capital variable under part I of the Law of 2010.

### Term

The Sub-Fund was incorporated for an unlimited period and its termination must be decided by the Board of Directors.

### Objectives

The Sub-Fund seeks to provide investors with long-term capital growth arising from investing in a diversified portfolio which is actively managed.

The Sub-Fund is a Socially Responsible Investing (SRI) Sub-Fund in that systematically and simultaneously integrates binding environmental, social and governance (ESG) criteria in the investment management process. It promotes a combination of ESG characteristics. It is a product falling under Article 8 of SFDR. This Sub-Fund holds a SRI Label in France. The investor's attention is drawn to the fact that his investment in the Sub-Fund does not generate a direct impact on the environment and society, but that the Sub-Fund seeks to select and invest in companies that meet the precise criteria defined in the investment policy.

The Sub-Fund invests a minimum of 75% of its assets in equities of corporate issuers with their registered office in the European Economic Area. The Sub-Fund selects companies with unique business models, or with significant global market share, or companies with a technological or geographical specific exposure and which aim to deliver profitable growth over the long term. The Sub-Fund invests mainly in small and mid-cap companies but can invest up to 15% of its total assets in the shares of Companies qualifying as large caps.

The main non-financial objective of the Sub-Fund is to invest in companies with good ESG practices (i.e. best in universe) or companies that are on an improving path regarding ESG practices (i.e. best efforts) while excluding companies that would not have a minimum absolute ESG rating (40/100). The Sub-Fund also seeks to help companies to improve their ESG practices by engaging in dialogue with them on a regular basis and by sharing with areas topics of improvement on specific ESG topics.

The Sub-Fund implements several sustainable approaches as defined by the Global Sustainable Investment Alliance: exclusionary screening, norm-based screening, positive ESG screening (i.e. "best in universe" or "best efforts").

From the proprietary "Leaders" universe, the Sub-Fund's investment process counts 3 steps: 1/ Liquidity filter and ESG rating; 2/ Strict exclusion from this initial investment universe of companies with a significant negative impact on specific ESG factors. The Sub-Fund reduces its ESG investable universe compared to its initial investment universe by at least 20% (i.e. an elimination of the 20% worst issuers) 3/ Sub-Fundamental analysis of each company considered for investment.

The Sub-Fund is actively managed with reference to the Stoxx Europe Small 200 Net Return EUR benchmark. However, the Management Company is not constrained by the relevant Benchmark in its investment decisions; it is free to select securities which are part, or not, of the relevant Benchmark. The Sub-Fund's holdings and the weightings of securities in the portfolio will consequently deviate from the composition of the relevant Benchmark. The relevant Benchmark is not consistent with the ESG factors taken into consideration by the Sub-Fund. The investment strategy can generate sectorial biases compared to the relevant Benchmark (overweights or underweights of some sectors).

The relevant Benchmark has been internally chosen for performance comparison, including for calculation of the performance fees, and risk measurement purposes. The relevant Benchmark's provider is authorised by the ESMA. The relevant Benchmark is a fixed component index designed to provide a representation of small capitalisation companies in Europe.

The Sub-Fund may use Financial Derivative Instruments FDIs such as index or sector futures, options on securities (including but not limited to options on equity and bonds) and potentially CFDs (including but not limited to CFDs on actions and stocks), for hedging. This must not have the consequence of significantly or lastingly distorting the Sub-Fund's ESG policy.

Custodian: The Sub-Funds assets are held with HSBC Continental Europe, Luxembourg and are segregated from the assets of other sub-funds of the Company.

Further information and price availability: Further information about the Company (including the current Prospectus and most recent Annual Report) is available in English, and information about the Sub-Fund and other Share Classes (including the latest prices of shares and translated versions of this document), are available free of charge on [www.elevacapital.com](http://www.elevacapital.com) or by making a written request to the Management Company, 32 rue de Monceau, 75008, Paris, France or by emailing [info@elevacapital.com](mailto:info@elevacapital.com).

Sale of shares in the Sub-Fund can be made on any business day.

The share class does not intend to distribute dividends. Any income arising from the Fund's investments is reinvested and reflected in the value of this share class.

### Intended retail investor

The Sub-Fund is suitable for investors seeking capital growth over at least a 5-year investment period and who wish to gain exposure to targeted equities and similar investments of the type described in the investment policy described above. The Sub-Fund may not be suitable for investors outside the target market.

# What are the risks and what could I get in return?

## Risk Indicator

The risk indicator assumes you keep the product for 5 years.  
The actual risk can vary significantly if you cash in at the early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Additional risks: Market liquidity Risk, Counterparty Risk, Economic Dislocation Risk, Smaller Company Risk, ESG Risk Factors.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If Eleva Capital S.A.S is not able to pay you what is owed, you could lose your entire investment.

## Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period : 5 years			
Investment EUR10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	What you might get back after costs	2,290 EUR	1,810 EUR
	Average return each year	-77.1%	-29.0%
<b>Unfavourable</b>	What you might get back after costs	7,240 EUR	7,480 EUR

<b>Favourable`</b>	What you might get back after costs	14,700 EUR	21,450 EUR
	Average return each year	47.0%	16.5%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 12/2021 and 12/2022.

The moderate scenario occurred for an investment between 09/2013 and 09/2018.

The favourable scenario occurred for an investment between 10/2016 and 10/2021.

## What happens if Eleva Capital S.A.S is unable to pay out?

The assets and liabilities of this product are segregated from those of Eleva Capital S.A.S. There is no cross- liability between these entities, and the product would not be liable if Eleva Capital S.A.S. or any delegated service provider were to fail or default. This product does not participate in an investor compensation scheme.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total costs EUR</b>	522 EUR	1,815 EUR
<b>Annual cost impact (*)</b>	5.2%	3.2% per year

(\*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.7% before costs and 8.9% after costs.

## Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	3.0% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	298 EUR
<b>Exit costs</b>	We do not charge an exit fee.	0 EUR
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	1.1% of the value of your investment per year. This is an estimate based on actual costs over the last year.	106 EUR
<b>Transaction costs</b>	0.6% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	58 EUR
Incidental costs taken under specific conditions		
<b>Performance fees</b>	The impact of the performance fee. We take these from your investment if the product outperforms its benchmark, STOXX Europe Small 200 (EUR) Net Return.	61 EUR

## How long should I hold it and can I take money out early?

Recommended holding period: 5 years.

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. Order Schedule: Requests to buy, exchange or sell fund shares that received in proper form by the central administration agent by 12:00 p.m. (Luxembourg time) on any fund business day are ordinarily processed the same day using valuations of that day. Settlement typically occurs within 3 business days after a request has been accepted. Disinvesting before the end of the recommended holding period may have a negative consequence on your investment.
