

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

19/02/2025

GLOBAL MACRO FUND Class I CHF ISIN: LU0927891522

A sub-fund of PROSPER FUNDS SICAV, SICAV under Luxembourg law with an indefinite term • Initiator of the product: Degroof Petercam Asset Services S.A., a subsidiary of Banque Degroof Petercam Luxembourg S.A. • www.dpas.lu • dpas@degroofpetercam.lu • +352 4535451 • Degroof Petercam Asset Services S.A. is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier

What is this product?

Type Accumulation shares (shares for which income and capital growth are retained in the share price) of a sub-fund of a SICAV, a regulated open-ended fund whose sub-funds are independent from a liability point of view.

Investment objectives and policy

Objective(s) To increase the value of your investment over the medium term.

Benchmark(s) The fund is managed without reference to an index.

Investment policy Under normal market conditions, the sub-fund invests, (in)directly through other funds, in equities, bonds, convertible bonds, money market instruments and structured products worldwide. The sub-fund invests mainly in developed markets. It may use derivatives to hedge against market fluctuations, reduce costs or even generate additional revenue.

Investment process Within the framework of active management of the sub-fund, the manager uses macroeconomic and financial analysis in order to allocate the investments in a flexible manner between the different asset classes, sectors and geographical areas.

ESG approach The manager does not systematically integrate environmental, social and governance (ESG) factors into his/her analysis of risks and opportunities and may invest in issuers with a low ESG profile.

SFDR category Article 6 (financial product that does not promote environmental or social characteristics, or does not have a sustainable investment objective according to European regulations (SFDR)).

Base currency CHF

Planning your investment

Product availability This sub-fund is available, with or without advice, for retail investors with basic financial knowledge and professional investors.

Investor profile This sub-fund is intended for investors who understand the risks of the sub-fund and are: (i) seeking an investment that combines income generation and capital growth, (ii) interested in exposure to a mixed asset allocation, either for core investment or diversification purposes, (iii) and have a medium tolerance for risk and can tolerate moderate loss.

Placing orders You can buy, exchange or sell shares of the sub-fund every full Luxembourg business day.

Terms to understand

Share Financial security corresponding to a share of a company's capital and generally giving the right to dividends.

Derivative instrument Any financial security whose value is linked to one or more interest rates, indices, equities, currencies, commodities or other underlyings.

Bond, convertible bond A financial security issued by a corporation, government or supranational entity that generally pays interest. A convertible bond is a bond to which is attached a right of conversion into one or more shares.

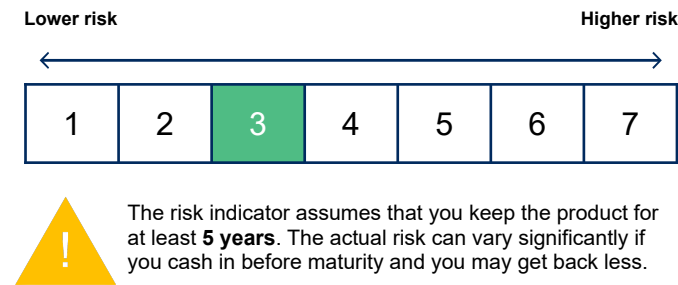

Structured product: A financial product whose value and remuneration are linked to a combination of underlying financial securities.

Depository: Banque Degroof Petercam Luxembourg S.A.

For more information, including the prospectus and financial reports, see "Other relevant information" on page 3.

What are the risks and what could I get in return?

Risk indicator

The risk indicator is designed to help you compare the risks of investment products. It uses the required calculation methodology, which includes market movements and the risk that the product manufacturer cannot pay out as required. The risk indicator is not guaranteed and may change over time.

All investments involve risk. The value of your investment in this product can go up and down, and you could lose some or all of your

investment. This product is rated at the medium-low risk level (3 out of 7). Poor market conditions are very likely to reduce the value of your investment.

The sub-fund's risk level reflects the following:

- Equity investments have higher volatility and risk than bonds and money market instruments.
- Diversification of investments between asset classes and geographical areas tends to reduce volatility and risk levels.

Other important risks partly or completely unreflected in the risk indicator:

- **If your currency as an investor is different from the subscription currency of this product, changes in currency exchange rates could reduce any investment gains or increase any investment losses.**
- Unusual market conditions or unforeseeable events may magnify risks or trigger other risks such as counterparty, liquidity and operational risks (a full description of these risks is available in the prospectus).
- If you place a request to sell (redeem) shares at a time when this product has received many other sell requests, the processing of your order may be delayed, which could affect the price you receive for your shares.

Performance Scenarios

This table shows the money you could get back (net of costs) over different periods, under different scenarios, assuming you were to invest CHF 10,000 in the sub-fund. You can compare this with the scenarios of other products.

The figures shown include all costs of the product itself. The figures do not take into account your personal tax situation, which may affect how much you get back.

What you will get from this product depends on future market performance.

Note that future market developments are uncertain and cannot be accurately predicted.

Recommended holding period:		5 years	
Example Investment:		10,000 CHF	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum			
Stress	What you might get back after costs	6,350 CHF	6,040 CHF
	Average return each year	-36.50%	-9.59%
Unfavourable	What you might get back after costs	8,430 CHF	8,450 CHF
	Average return each year	-15.70%	-3.31%
Moderate	What you might get back after costs	9,370 CHF	10,400 CHF
	Average return each year	-6.30%	0.79%
Favourable	What you might get back after costs	10,710 CHF	11,690 CHF
	Average return each year	7.10%	3.17%

The unfavorable, intermediate and favorable scenarios presented represent examples using the best and worst performance, as well as the average performance of the product and the appropriate index over the past 10 years. The stress scenario shows what you might get back in extreme market circumstances. The markets could evolve very differently in the future.

An index appropriate to the product was used to calculate performance.

Unfavourable scenario: this type of scenario occurred for an investment between 31/03/2015 and 31/03/2020.

Moderate scenario: this type of scenario occurred for an investment between 31/05/2016 and 31/05/2021.

Favourable scenario: this type of scenario occurred for an investment between 29/12/2018 and 29/12/2023.

What happens if Degroef Petercam Asset Services S.A. is unable to pay out?

The sub-fund's assets are segregated from those of the other sub-funds in the SICAV and from Degroef Petercam Asset Services S.A., the product manufacturer and management company of the sub-fund. Even if it were to fail, the product manufacturer could not use the sub-fund's assets to pay its debts.

The only scenario under which an investor could incur a loss is by selling shares at a time when they are worth less than what the investor paid.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

This table shows the amounts deducted from your investment to cover various costs. These amounts depend on the amount you invest, the duration of your investment and the performance of the sub-fund. The amounts shown are illustrations based on a hypothetical investment amount and different investment periods.

We have assumed that:

- for the first year, you get back the amount you invested (0% annual return);
- for the other holding periods, the product evolves as indicated in the intermediate scenario;
- CHF 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	1,030 CHF	2,232 CHF
Annual cost impact (*)	10.3%	3.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 5,0 % before costs and 0,8 % after costs.

Composition of the costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3,0% of the amount you pay in when entering this investment. This is the most you will pay, you could pay less.	Up to 500 CHF
Exit costs	3,0% The costs of exiting your investment (redemption fee). This is the most you will pay, you could pay less.	309 CHF
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,7% of the value of your investment per year. This is an estimate based on actual costs over the last year.	168 CHF
Transaction costs	0,3% This is an estimate of the costs incurred when buying and selling investments underlying the sub-fund. The actual amount will vary depending on the quantity bought and sold.	33 CHF
Incidental costs taken under specific conditions		
Performance fees	Fee of 15,0% calculated on each valuation day by comparing the performance of the net asset value per share to that of a High Water Mark. The percentage of 0,2% represents the average annual performance fees paid over the last 5 years.	20 CHF

How long should I hold it and can I take money out early?

Recommended holding period At least 5 years.

Redeeming your investment You can request to take out some or all of your money at any time. See Processing requests in *What is this product?* above.

How can I complain?

You can send an email including a description of the issue and your contact details to compliance_team_dpas@degroopfetercam.lu, or send your complaint in writing together with supporting documents, to:

Degroof Petercam Asset Services S.A.
To the attention of the Chief Compliance Officer
12, rue Eugène Ruppert
L-2453 Luxembourg.
